# Praying for the Muslim World

November  
2026

Featured training available on our website—H.A.N.D.S.: <https://www.ffmna.org/ffmdoptraining>

| November 1-7 – PRAISE & THANKSGIVING   |                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Week 1                                 | <i>"Do not be anxious about anything, but in every situation, by prayer and petition, with thanksgiving, present your requests to God." Philippians 4:6 (NIV)</i>                                                                                                                                                                                                                                                                                |
| Sun 1                                  | <b>Praise God</b> for Yemeni humanitarian workers, local responders, and host communities who continue to serve families repeatedly driven from their homes. Renewed fighting has forced more than 230,000 Yemenis from their homes since August. Ask the Lord to protect and sustain the Christian workers.                                                                                                                                     |
| Mon 2                                  | <b>Praise God</b> that food and nutrition assistance is still reaching people in Sudan despite immense need and funding gaps. In September, WFP reached 3.1 million people, including many in areas at risk of famine. Pray that provision will increase and hope will endure.                                                                                                                                                                   |
| Tue 3                                  | <b>Praise God</b> for Christian believers, neighbours, and workers who share what they have with people in Gaza who are displaced and in need of shelter, food, water, and medical care. Pray that these acts of mercy will demonstrate Christ's love, comfort those who are grieving, and point many hearts to the God of all comfort.                                                                                                          |
| Wed 4                                  | <b>Praise God</b> for the resilience of Afghan families and communities facing poverty, drought, return, and restricted access to basic services. Pray that practical help will reach those most vulnerable and that many will discover Jesus as their refuge.                                                                                                                                                                                   |
| Thu 5                                  | <b>Praise God</b> that the Afghan church, though unseen, has not been forgotten. Pray for believers who gather in small, secret ways, that the Word of God will take deep root and that they will know Christ's presence and protection.                                                                                                                                                                                                         |
| Fri-Sat 6-7                            | <b>Praise God</b> for the steadfast witness of Iranian believers who continue to follow Jesus despite surveillance, arrests, and severe pressure. Pray that the Lord will guard their faith, give leaders wisdom, and strengthen every hidden fellowship.                                                                                                                                                                                        |
| November 8-14 – PRAY FOR MUSLIM PEOPLE |                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Week 2                                 | <i>"For he will deliver the needy who cry out, the afflicted who have no one to help." Psalm 72:12 (NIV)</i>                                                                                                                                                                                                                                                                                                                                     |
| Sun 8                                  | Pray for Sudanese families living with hunger, displacement, and fear of renewed violence. Ask God to protect children, provide daily bread, and open safe, dependable routes for food, medical care, and other life-saving help. Many women and children in Sudan are facing heightened risks of exploitation, abuse, family separation, and trauma. Ask God to raise up trustworthy local protection, healing care, and justice for survivors. |
| Mon 9                                  | An Iranian woman from a Muslim background who came to faith through reading Scripture now helps equip women for house-church leadership. Pray for protection, wise fellowship, and many more Iranians to encounter Jesus and grow safely in faith.                                                                                                                                                                                               |
| Tue 10                                 | An Afghan family whose faith in Jesus has helped them endure displacement and danger. Pray that Afghan believers will find safe fellowship and practical support, and that many more Muslim families will encounter Christ's love and truth and find hope and peace amid hardship.                                                                                                                                                               |
| Wed 11                                 | A Syrian Muslim-background believer who came to faith after reading the Gospels now follows Jesus discreetly. Pray for courage, protection, and safe opportunities for seekers across the Arab world to read God's Word and meet Christ.                                                                                                                                                                                                         |
| Thu 12                                 | A Moroccan believer who encountered God's love through John 3:16, endured family rejection, and now encourages other seekers. Pray for protection and wise discipleship for believers across North Africa, and for many Muslims to discover the love of Jesus.                                                                                                                                                                                   |
| Fri-Sat 13-14                          | A Turkish Muslim-background believer who came to faith through Christian reading, Scripture, and the welcome of a local church. Pray for courage amid family rejection, healthy Christian community, and open hearts across Turkey to the Gospel.                                                                                                                                                                                                |

November  
2026

| Week 3        | November 15-21 – PRAY FOR THE CHURCH AND THE LABOURERS<br><i>“Speak up for those who cannot speak for themselves ... defend the rights of the poor and needy.”</i><br>Proverbs 31:8-9 (NIV)                                                                                                                                                                                                                             |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Sun 15        | Pray for Iranian Christian converts, house-church leaders, and their families. There have been reports of arrests and detention after house-church raids, and penalties can include prison, fines, travel bans, or forced religious re-education. Ask God to protect those vulnerable to raids or interrogation; pray for wise counsel, secure fellowship, and deep inner peace.                                        |
| Mon 16        | Pray for Afghan believers, especially converts from Islam, who must live out their faith in great secrecy. Open Doors reports that there is no visible church, and small gatherings may need to change locations to remain safe. Pray for discreet access to Scripture and safe fellowship, discipleship, and practical support.                                                                                        |
| Tue 17        | Pray for pastors, Christian families, and young people in Pakistan affected by threats, blasphemy accusations, and mob violence. USCIRF reports that these pressures have deepened fear for religious minorities and church leaders. Ask God for protection, fair justice, and grace to remain faithful and loving toward neighbours.                                                                                   |
| Wed 18        | Pray for local pastors, relief workers, medical staff, and peacemakers serving people affected by conflict in Sudan, Gaza, and Yemen. Displacement, damaged services, and insecure access often mean that workers serve communities in crisis while carrying risks and burdens of their own. Ask God to guard them from exhaustion, give courage and discernment, and multiply the healing impact of their service.     |
| Thu 19        | Pray for church leaders and peacebuilders in Nigeria as communities endure violence that has harmed Christians and Muslims alike. The UN reports a broad crisis of insecurity, displacement, hunger, and destroyed schools and health centres. Ask God to protect civilians, heal division, disrupt armed groups, and equip believers to offer courageous, Christ-centred reconciliation.                               |
| Fri-Sat 20-21 | Pray for Muslim-background believers across restricted contexts who are quietly exploring Jesus or discipling others. Surveillance, family pressure, and isolation can make access to Scripture, trained mentors, and trusted fellowship especially difficult. Ask the Holy Spirit to lead them into truth and provide secure communication, wise mentors, and communities of trust.                                    |
| Week 4        | November 22-30 – PRAY FOR A MUSLIM REGION<br><i>Focus on crisis-affected Muslim Communities</i>                                                                                                                                                                                                                                                                                                                         |
| Sun 22        | Pray for Sudan, where conflict has devastated homes, livelihoods, schools, health facilities, and markets. Ask God to restrain violence, protect civilians, provide safe access for aid, and raise up leaders who choose peace and accountability.                                                                                                                                                                      |
| Mon 23        | Pray for communities in southern Afghanistan where food insecurity, malnutrition, poverty, water shortages, and explosive remnants of war are compounding hardship. Ask God to bring safe livelihoods, clear water, protection for children, and access to help.                                                                                                                                                        |
| Tue 24        | Pray for Gaza as displaced families face damaged infrastructure and unsafe shelters. Ask the Lord to protect people from flooding and illness, strengthen relief efforts, and bring comfort and stability to children living through repeated displacement.                                                                                                                                                             |
| Wed 25        | Pray for hospitals and medical teams in Gaza, where shortages of fuel, medicines, and equipment threaten care for the sick and injured. Ask God to make a way for supplies and patients to move safely, and to bring healing to those who are suffering.                                                                                                                                                                |
| Thu-Fri 26-27 | The people of Ta’iz and nearby communities in Yemen are in vulnerable position as fighting and road closures have cut off essential supplies. Ask God to open secure routes, prevent further civilian harm, and bring food, water, fuel, medicine to those in need. Pray for the protection of humanitarian workers, that they would be able to reach families before hunger, disease, and displacement deepen further. |
| Sat-Mon 28-30 | Pray for the whole region: Sudan, Gaza, Yemen, Afghanistan, and Pakistan. Ask God to turn hearts away from violence, give leaders wisdom, sustain His church, protect vulnerable Muslims and minorities, and draw many people to Jesus, the Prince of Peace.                                                                                                                                                            |
